HARSH JANGID

COMPUTER ENGINEERING STUDENT | PYTHON DEVELOPER

+91 8460103670 | harsh.240180107014@gmail.com | Surat, Gujarat | https://www.linkedin.com/in/gecdhd-comp-harsh-jangid

PROFILE

Computer Engineering student with strong hands-on Python skills and a growing portfolio of personal projects. Confident in logical problem-solving, mathematical reasoning, debugging, and learning technical concepts independently. Interested in software development, data-focused applications, and practical problem solving.

TECHNICAL SKILLS

Programming: Python, C, SQL	**Core strengths:** Logical reasoning, problem solving
Python / Data: NumPy, Pandas, SciPy, BeautifulSoup	**Development:** File handling, OOP, database programming
Web / Tools: HTML, VS Code, MS Excel, Canva	**Approach:** Debugging, independent learning

PROJECTS & PRACTICAL WORK

- **Personal Python Project Portfolio** - Built multiple Python projects independently to strengthen programming, problem-solving, and practical application skills.
- **Python + MySQL Database Work** - Created programs to connect Python with MySQL and perform database/table operations such as insert, update, delete, and commit/transaction handling.
- **Data / Web Programming Practice** - Worked with NumPy, Pandas, SciPy, BeautifulSoup, file handling, classes, lists, loops, and other core Python concepts through hands-on tasks and projects.
- **Academic Data Mining Work** - Explored a movie recommendation system as a practical introductory experiment in data mining.

EDUCATION

B.E. - Computer Engineering | Government Engineering College, Dahod

2024 - 2028 | **Currently in 3rd Year** | SPI: 8.11 (till 1st semester)

ADDITIONAL STRENGTHS

Analytical & Mathematical Thinking | Logical Problem Solving | Self-Learning | Debugging | Technical Curiosity

LANGUAGES

English | Hindi | Gujarati | Marwadi

Open to internships, student developer roles, and project-based opportunities.
